Glass Tiles Set the Stage for Creative Drama

Tampa, Florida –September 28, 2008 – “Mosaics create luxury,” says Rita Levine, Diamond Tech Tiles Marketing Director. This luxurious style comes from the rich color and texture deep within the body of the glass. Glass tiles have become a very popular choice in surface coverings because they lend both a contemporary and old world look to any room environment.

Diamond Tech Tiles features a larger selection of Venetian-style and back-painted glass tiles. “People like variety and assortment,” says Levine. Diamond Tech Tiles offer both.

She also observes that kitchens are being simplified. More people are requesting fewer cabinets, freeing up more wall space. This type of open space creates the perfect stage for the distinctive brilliance of the new **Mosaic Tile Mixes**.

Available in eight brilliant color combinations, these new glass mixes will set the stage for creative drama in any living space. The $\frac{3}{4}$ ” x $\frac{3}{4}$ ” tiles have an extraordinary adaptability to different applications and work well in both commercial and residential environments.

Green materials continue to gain momentum; Diamond Tech Tiles is sensitive to this trend. The new Mosaic Mixes contain up to 20% post consumer materials which makes them not only stunning but environmentally friendly.
