Create Impact in the Kitchen

TAMPA, FL. (October 14, 2008) – The kitchen is usually the hub for all activities in the home. It is a place where you share a cup of coffee with neighbors, the place your family hangs out before and after meals and where guests always gravitate to during parties. So why not brighten and modernize your kitchen by simply installing a new backsplash or accent wall.

Whether your kitchen is traditional or contemporary, glass is a superior material to use in creating impact. It is extremely simple to keep clean, impervious to dirt and requires minimal maintenance. It is also a fine way to spice up the area with a burst of color and, due to its highly reflective nature, can make small kitchens look larger!

Diamond Tech Tiles newest additions to their Dimensions Glass Tile Series are a perfect tile to add interest to your kitchen. Choose from such colors as yummy Chocolate, sunny Spring, ultimate Bright White, earthy Army and Desert. That is not all, six new color mixes; Tribal, Mink, Metro, Meadow and Mountain Air will have guests raving.

Diamond Tech Tile realizes not everyone likes a small mosaic, so they have extended their Dimensions Series to include the very popular 2" X 2" and 3" x 6" field tile. The new sizes are available in all colors, complimenting most popular counter top materials.

Because a backsplash is very visible to anyone entering the kitchen, it make sense that adding glass to this area will freshen, as well as modernize the look affordably. Diamond Tech Tiles offers an array of tiles for you to create just the type of impact you want to make.
