DIAMOND TECH TILES LAUNCHES NEW WEBSITE

FOR IMMEDIATE RELEASE – Tampa, FL — May 23, 2013 – DIAMOND TECH TILES today announced the launch of the new DTTILES.COM website.

The new website features expanded content, incorporates big bold graphics and completely new navigation system. The redesigned site aims to provide users with a clean uncluttered environment allowing users quicker access to the key information they seek.

"We've been very busy this year," said Rita Levine, DTT Marketing Director. " DIAMOND TECH TILES is in the process of launching a new website, new catalog and new innovations, and a strong renewed customer focus. It was time to capture our spirit with a website that better reflects who we are as a brand and to showcase the many changes we have accomplished within our company.

"There is much more to come," LeVine mentioned. "The new site will continue to be updated, improved, and adapted to our customer's needs. Today, there is little doubt that our website will become one of the most resourceful tools for all who visit."

**About Diamond Tech Tiles**

Diamond Tech Tile is a subsidiary of The Daniels Corporation, a customer-friendly American based company. Founded over 25 years ago, the Daniels Corporation's primary objective is to promote the use of art glass and mosaics through innovative products. Our tile series may be used in both exterior and interior design applications, including kitchen backsplashes, bathrooms, fireplace surrounds and feature walls. Our products are also ideal for pools, fountains and spas. We offer several lines of tiles, each with a distinct look and feel to maximize design possibilities.
